APRIL 2026

Hello April!

Spring is finally here, and April brings lots of fun things to celebrate! Easter reminds us of joy and new beginnings.

April Fools' Day brings a little silliness, and the warm weather helps flowers and trees start to bloom. April is also Earth Month, a special time to remember how important our planet is. Even small actions, like picking up litter, recycling, or turning off lights, help keep the Earth happy and healthy. Let's enjoy the sunshine, the laughter, and all the ways we can take care of our world this month!

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

April Fools' Day brings a little silliness, and the warm weather helps flowers and trees start to bloom. April is also Earth Month, a special time to remember how important our planet is. Even small actions, like picking up litter, recycling, or turning off lights, help keep the Earth happy and healthy. Let's enjoy the sunshine, the laughter, and all the ways we can take care of our world this month!

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

April Fools' Day brings a little silliness, and the warm weather helps flowers and trees start to bloom. April is also Earth Month, a special time to remember how important our planet is. Even small actions, like picking up litter, recycling, or turning off lights, help keep the Earth happy and healthy. Let's enjoy the sunshine, the laughter, and all the ways we can take care of our world this month!

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

APRIL 2026

Hello April!

Spring is finally here, and April brings lots of fun things to celebrate! Easter reminds us of joy and new beginnings.

April Fools' Day brings a little silliness, and the warm weather helps flowers and trees start to bloom. April is also Earth Month, a special time to remember how important our planet is. Even small actions, like picking up litter, recycling, or turning off lights, help keep the Earth happy and healthy. Let's enjoy the sunshine, the laughter, and all the ways we can take care of our world this month!

What do you call a dinosaur that's sleeping?
A dino-snore! 

Why did the student eat his homework? 
Because the teacher said it was a piece of cake!

APRIL 2026

Hello April!

Spring is finally here, and April brings lots of fun things to celebrate! Easter reminds us of joy and new beginnings.

April Fools' Day brings a little silliness, and the warm weather helps flowers and trees start to bloom. April is also Earth Month, a special time to remember how important our planet is. Even small actions, like picking up litter, recycling, or turning off lights, help keep the Earth happy and healthy. Let's enjoy the sunshine, the laughter, and all the ways we can take care of our world this month!

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

Spring is finally here, and April brings lots of fun things to celebrate! Easter reminds us of joy and new beginnings.

April Fools' Day brings a little silliness, and the warm weather helps flowers and trees start to bloom. April is also Earth Month, a special time to remember how important our planet is. Even small actions, like picking up litter, recycling, or turning off lights, help keep the Earth happy and healthy. Let's enjoy the sunshine, the laughter, and all the ways we can take care of our world this month!

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.

Grow Your Garden

April is a month full of new life, blooming plants, and fresh starts; the perfect time to make your own flower pot! You can decorate a store-bought pot with bright colors and fun designs, or create your own using recycled items like plastic bottles, egg cartons, or milk cartons. After your pot is ready, plant something easy to grow, like a sunflower seed, lettuce, or herbs, and watch it sprout as the days get warmer. If planting isn't your thing, you can still join the fun by making a handprint flower pot. Scan the QR code for a tutorial! It's a great way to celebrate spring and help the Earth by reusing materials.
